PROFILE

Motivated BS Computer Science student at NUML University Lahore (5th Semester) with practical experience in data analytics and machine learning. Built two end-to-end portfolio projects covering Python, SQL, Power BI and predictive modeling. Proficient in Object-Oriented Programming principles in Python and skilled at transforming raw data into clear business insights. Eager to join a professional team and grow as a Junior Data Analyst.

TECHNICAL SKILLS

Data Analysis: Python · Pandas · NumPy · Matplotlib · Seaborn · Scikit-learn · SQL Server (SSMS) · Power BI
Machine Learning: Logistic Regression · Random Forest · Feature Engineering · Model Evaluation · StandardScaler
Programming: OOP in Python · Data Structures · Algorithms
SQL: SELECT · WHERE · GROUP BY · HAVING · ORDER BY · Window Functions · CTEs · Joins · Date Functions
Tools: VS Code · Jupyter Notebook · Git · GitHub · Power BI Desktop · MS Office

PROJECTS

Telco Customer Churn Analysis & ML Prediction

Tools: Python · Pandas · Scikit-learn · Matplotlib · Seaborn · Power BI **GitHub:** github.com/khuwaja-mahdi/Data-Analyst-Portfolio/tree/master/Project1_Churn

- ▶ Analyzed 7,032 customer records to identify a 26.54% churn rate and key business drivers
- ▶ Built Logistic Regression (79% accuracy) and Random Forest (79.5% accuracy) models and compared them using accuracy, precision, recall and F1-score
- ▶ Created 10+ visualizations including heatmaps, histograms and box plots to reveal churn patterns
- ▶ Built interactive Power BI dashboard with 4 charts and 3 slicers (Gender, Senior Citizen, Contract)
- ▶ Applied complete ML pipeline: data cleaning → EDA → feature engineering → model training → evaluation → model saving with pickle

Superstore Sales Dashboard

Tools: Python · Pandas · Matplotlib · Seaborn · SQL Server (SSMS) · Power BI **GitHub:** github.com/khuwaja-mahdi/Data-Analyst-Portfolio/tree/master/Project2_Sales

- ▶ Analyzed 9,994 rows of US retail sales data covering 2014–2017 to uncover sales, profit and trend insights
- ▶ Performed data cleaning, exploratory data analysis and built 8+ chart types in Python
- ▶ Wrote 15+ SQL queries in SSMS from basic SELECT to advanced Window Functions and CTEs
- ▶ Key findings: West Region highest sales, Technology most profitable, discounts above 50% consistently cause losses
- ▶ Built professional interactive Power BI dashboard with custom theme, 4 charts and 3 slicers

EDUCATION

BS Computer Science — NUML University, Lahore	2024 – 2028
Intermediate (FSc) — Punjab Group of Colleges, Lahore	2022 – 2024
Matriculation — The Green School, Lahore	2020 – 2022

LANGUAGES

Urdu — Native • English — Professional Working Proficiency
